Summary:

I am a mobile software engineer with +1.5 years of experience with more than 10 apps on both stores. I worked on different types of apps such as e-commerce, social media, hiring and HR payroll apps. I participated in the whole development life cycle of these apps. I have strong and solid background in all software engineering aspects.

Education

Faculty of Infromatics and Computer Science – The British
University in Egypt BSc. Computer Science 2017-2021 Grade (A)

Experience

Flutter Developer at Override August: December 2020
Flutter Developer at MassiveET March: May 2021

Projects

Homemade an e-commerce multi-versions app for home made food in Saudi Arabia. I was a team leader for a group of developers to develop these 2 apps and was able to develop and deploy them in just 3 weeks.

iOS:
